2027 SHOW • July 8-10, 2027 | 2028 SHOW • July 6-8, 2028

EMERGENCY INFORMATION

If you have an emergency - anything at all - during the Iola Old Car Show your first course of action is always to call 911: you are located at Iola Car Show Grounds in Iola, WI.

IF YOU SEE SOMETHING-SAY SOMETHING.

Contact a law enforcement officer, the tower or an Iola Car Show Official.

CODERED EMERGENCY ALERT SYSTEM

Waupaca County utilizes what is known as the CodeRed Emergency Alert System when a critical incident or emergency situation takes place within the county. We use this system to notify the entire county or specific areas within the county of important information.

See page 103 for sign up information.

LOST CHILD

In the event of a lost child, an emergency plan has been developed. The first step is to check at the Tower. Then contact any Iola Car Show staff, law enforcement officer, or emergency personnel. The Emergency Command Post will be notified, and a search conducted.

Iola Old Car Show Inc., 501(C)3 is a non-profit community service organization.

Telephone (715) 445-4000, e-mail: Information@iolaoldcarshow.com, or visit www.iolaoldcarshow.com.

Iola Car Show Grounds address: 350 Chrome Place, Iola, WI 54945. Iola Car Show Campgrounds address: E2196 Johanson Rd., Iola, WI 54945

POST WAR

A Letter from the EXECUTIVE DIRECTOR

On behalf of the Board of Directors, staff, and volunteer organizations, I'd like to say "hello and welcome" to Iola '25. Our team has spent the entire past year working hard to make this week special for everyone involved, and we can't thank you enough for sharing in the tradition of Iola. Whether this is your first time here, or you've never missed a show, we are so happy you're here.

We're celebrating a theme we think will really be fun... 4x4Fun, to be more precise...(sorry). We hope you're as excited as we are to see the grounds filled with Jeeps, Broncos, Blazers, Scouts and more, along with some special treats of a much larger variety. Details of the theme will be highlighted in the poster story elsewhere in the directory.

Not to be outdone, we're thrilled to say the swap meet remains as strong and vibrant as you can find anywhere in the country. The acres and acres of swap spaces are filled with vendors from all over the country, outfitted with inventories of NOS, aftermarket and nostalgic goodies, as well as flea market spaces helping to round things out.

For the first time ever, this year's event is being covered by a major television network. Powertube TV has production staff onsite to capture all the fun and the spirit of the event on video, which will be turned into a full production special. The stories we share here on these grounds will be viewed in high definition all across the world. Those stories are made possible by you, the participants that make Iola what it is.

This off-season has been a particularly challenging one for the staff. The retirement of Mary Schwartz has brought with it the predictable side effects any operation would face when losing a longtime performer. Mary was filled with decades of institutional knowledge and experience. The office staff has been doing a great job managing operations since her retirement, but Mary is sorely missed by all. We are very happy to report we see her often and she is happily enjoying her retirement.

Additionally, the decision has been made to find a replacement to the registration platform we've been using for the last few years. While the online program has ultimately functioned, it was a very difficult system to maintain internally, and caused plenty of headaches for participants looking to register for spaces, camping and show cars. We're optimistic the new program will serve us and our participants better, but it's never fun learning a new system.

As is their habit, the Pit Crew has been tireless in their efforts to maintain and improve the grounds. Over the winter, they made tremendous progress refinishing large rooms inside the convention center building. The longer than expected winter, with extra weeks of rain and snow, has added a lot of pressure to complete projects on the grounds in time for the show. Major projects the pit crew are currently working on as of the time of this writing (early May) include the new shower facilities, Oasis house and backyard, Cruise of Honor base, and improvements to the Thorson Food area and Gear Kids space. You won't hear any complaints from that crew, but their plates are more than full this spring.

We would encourage everyone to make sure to explore the new exhib-

its within the convention center. The space between the Lindsay Room and the G&B Chrysler Dealership has come alive with some exciting historical displays that show first hand just how far the automotive industry has come from inception to modern day. Something exciting we're working on is the application for a Special Group License Plate themed after the Iola Car Show. In order to get this application submitted with the State of Wisconsin, we need 500 signatures from Wisconsin residents in order to get the process started. We're asking that as many people as possible stop by the tower to sign the application documents.

Iola continues to be blessed with more than 1,000 volunteers representing 120 different organizations that are here to serve you while also helping to further the cause of their non-profit organizations. In just the last three years, we've been able to donate more than \$800,000 back to those volunteer groups. This year, we will cross the remarkable threshold of \$10,000,000 donated since incorporating as a non-profit in the mid 1980s.

Those donations are made possible because of all the participants of the show, and are the lifeblood of the groups we're partnered with. We hope everyone here shares a sense of pride in that accomplishment. The Iola Car Show and Swap Meet isn't just another show. The money you spend here ripples throughout the state of Wisconsin and beyond, having positive impacts you could never imagine.

On behalf of everyone involved in the show, I want to thank you for being here. Your presence means the world to us.

Welcome home to Iola.

BAM! COATINGS SHOWCASE SERVICES IN BRAND NEW SHOWER FACILITIES

In continued efforts to improve the grounds and make the overall experience better for everyone, we were thrilled to break ground last fall on brand new shower facilities. These two new buildings, one for men and one for women, are located centrally in the upper swap area where the shower trailers have previously been.

Much of the work was completed in-house by our very handy Pit Crew, but we also received support from a host of great local companies. The block work was done by Melum Masonry, located right here in Iola. Excavation services were provided by Bestul Excavating, also located in Iola. Lorge Plumbing of Manawa was contracted for the plumbing work, and Noffke Lumber of Wau-paca helped with design services and material ordering.

As often as possible, we love for our projects to also serve as a showcase for

our partners products and services. BAM! Coatings, located in the Fox Valley region, provided the concrete floor coatings that are as beautiful as they are functional and durable. Their full flake system helped us create a space that will be easy to maintain with a long lasting quality that's essential for

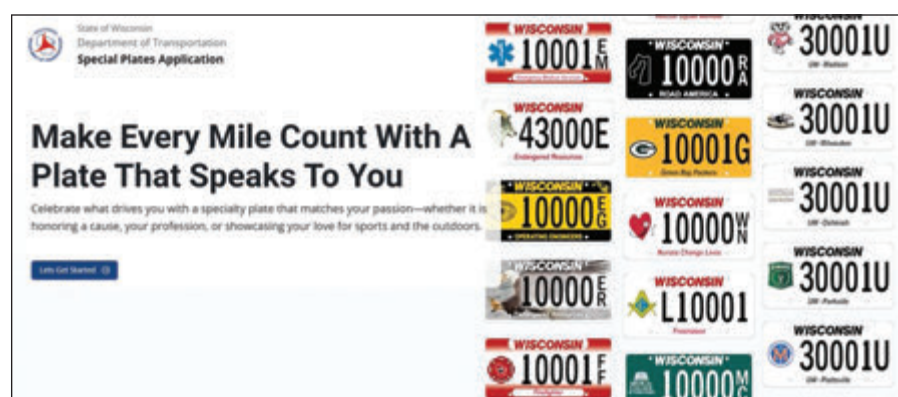

the new space.

In 2025, we are offering these showers at no extra cost, but will be accepting donations. As we gain a greater understanding of the long term costs of operation and donations received, we'll consider pricing the showers accordingly in the future.

DORSHORST DRIVES PUSH FOR IOLA CAR SHOW LICENSE PLATES

During 2024, local car show participant Jason Dorshorst reached out to the staff to encourage and offer help on the development of an Iola Car Show themed license plate through the State of Wisconsin. Jason did the initial research and got the ball rolling on what is becoming a very exciting opportunity.

The Wisconsin DOT offers a program for Authorized Special Group License Plates. You see them all the time on the road, with various institutions around the state participating in the program. Common examples that stick out include Green Bay Packer plates, Milwaukee Brewer plates, Road America plates... the list goes on and on. Along with showing your Wisconsin pride, the program also serves as a fundraiser for a number of causes and

organizations.

As part of the application process, we need 500 signatures from Wisconsin residents who are in support of the special plates. Thanks to Jason's efforts, we have a great jumpstart on

that. We hope to get the rest of the needed signatures the week of the show. Please be sure to stop by the tower and sign the paperwork if you're a Wisconsin resident and in support of this awesome opportunity.

Iola Car Show Mission Statement:
"Together, we leverage the power of vehicles
to create memories and transform lives."

2025 Poster 4x4FUN

The poster shoot for each year's show is always a fun and challenging project. Once the theme has been determined, we start looking for vehicles that help tell the story and cover the bases appropriately. Some years, the theme really provides obvious direction for a poster shoot venue, while other years require a little more creative thought. This year's theme was somewhat of a combination of the two.

We've been hoping to do a theme that includes SUV's for quite some time. Jeeps, Bronco's, Blazer's, Scouts and oh so many more models have never gone out of style, and are very extremely popular today as daily drivers, specialized builds and more. We work with some tremendous companies, like Toys for Trucks, whose entire business is based on the fun, excitement and utility of these very vehicles. When it came to coming up with the name for the theme, we kicked it over to Director of Swap, Matt Marquardt, to help us out. He's got a real knack for creative titles, and he came back to us with the 4x4Fun concept in short order.

For the poster background, we had a vision of what we were looking for from the onset. Something adventurous, with rocks to climb and hills to overcome is exactly what 4x4Fun is all about. Having the vision, however, is only half the battle. Finding the venue

that works for a shoot was a much harder task. Enter photographer extraordinaire, John Hartman.

We've been absolutely blessed to work with John on our most recent posters and other projects. After scouting out several quarries in central Wisconsin, John went back to his past experiences and steered us toward MCC's quarries in northern WI. After scouting them, we found the perfect location at Ruby Quarry.

On a very brisk morning in mid-October, four very cool 4x4's showed up one by one to the site. Dane and

Kayleen Brabak of Phillips, WI brought their labor of love 1969 Chevy K10. Todd Woyak of Stevens Point brought his 1984 Jeep CJ-7. Family representatives of the late Jamie Thurber brought his 1970 Ford F100 Short Box, including a very special 16-year old who got a day out of school and will be inheriting the vehicle. Jake Bisbee of Columbus brought his 1974 International Scout II. Together, these four vehicles are awesome representatives of a theme that really stands out in car show history.

Following the shoot,

the group enjoyed a great breakfast and learned a bit more about the history of the vehicles and their owners. You can learn more and see them first hand during the show inside the Garage Experts Special Exhibit Room. Along with the poster, these vehicles are forever memorialized in Iola Car Show lore, being featured on shirts, collector beer cans, pins and more.

Be sure to check them out and all the other amazing examples in the theme area this year!

Emergency information

If you have an emergency – anything at all - during the 2025 Iola Car Show the first course of action is always to call 911. You are located at the Iola Car Show Grounds in Iola, WI.

IF YOU SEE SOMETHING – SAY SOMETHING. Contact a law enforcement officer, Tower Staff or an Iola Car Show Official.

Fires

No open fires of any type are permitted on the show grounds or parking lots. Fire dangers, along with regulations, make such violations a fine and liability offense.

First Aid

First aid service is available at the west side of the Convention Center building, near gate #4.

Forms of Transportation- *Not allowed

The following forms of transportation are not allowed on the show grounds: scooters, skateboards, ATV's, lawnmowers, tractors, motorbikes, bikes and golf carts without an official permit. (see the Golf Cart Path section for details). Those who do not comply with this policy will be evicted from the grounds. If the offending party is registered on Iola Car Show space(s), the spaces(s) will be revoked without any refund of fees.

Gate Information (see page 6 for map)

Spectator Parking Lots Entrance:

Gate #19 (Hwy J entrance)

Vendor Gates:

Gate #2 (entrance),

Gate #6 (exit), Gate #4 (after 10:00 p.m.),

Gate #18 (overnight truck & trailer parking)

After 4:00 p.m. on Saturday - Exit gates: Gate #1, #2, #3, and #6

Car Corral Registration: Gate #16

Show Car Gates:

Gate #3-Post War and Old Car Young Driver.

Gate #4-Theme, Special exhibit, Blue Ribbon, Survivor, Pre-war, Women with Wheels, Late Model, and Original Owners.

Gate #5-Modified cars.

Show Car trailer parking: Hwy 161 across from Gate #6

Press Parking: Gate #8. *Must have press credentials

Golf Cart Path

Carts with an official permit may be operated during normal show hours (6:00 a.m.-6:00 p.m.) within the boundaries of the designated path only. If the cart is found in any other location, during these hours, its permit will be revoked at the discretion of Iola Staff or Security personnel. Cart registration is located near gate #1. Privately owned golf carts will have a one-time \$50.00 permit fee, valid for the entire duration of the 2025 Show. Golf carts are available to rent, from Jim's Golf Cars. Advanced reservations are recommended. 920-754-4175

Handicap Parking

Enter the Spectator Parking through Gate #19 (Hwy J entrance) & proceed to the handicap parking lot located near Gate #1.

Vehicles must have an official handicap license to park in this location. Disabled persons riding in a vehicle without a handicap permit can be dropped off and the driver must use the regular spectator parking lots. Available handicap showground transportation; *See Bus Shuttles and Mobility Carts.*

Ice

Available for purchase at major beverage stands, the tower and the campground store.

Information Board

There is a board for posting messages, northeast of the commercial vendor building or across from the Primal Eats food stand. No advertising or posting of materials is permitted on any of the car show buildings/property, including but not limited to restrooms, tower, registration facilities, ticket booths, convention center building, and shower houses.

Information Booth

An information booth is located in the Tower.

Lost & Found

Lost & Found service is located at the Tower. Lost children should be brought to the Tower office. Missing children should also be reported there. We do not page individuals who become separated from their parties. It is recommended you work out a meeting area should your party become separated. A good place would be at the base of the Tower.

Maps

Area maps can be found in the directory; Overall grounds, show car areas, convention center building, campgrounds, swap meet, car corral, internal bus route. See the table of contents on pg. 3 for corresponding maps & page numbers.

Mobility Carts

A mobility cart is defined as a 3 or 4-wheeled electric, one passenger cart. Mobility carts are allowed on any part of the grounds. Anyone may bring their own to the grounds, or rental is available onsite by Gate #1, near the handicap parking lot. Absolutely no trailers or wagons may be attached to a mobility cart. Wheelchairs, strollers and wagons are also available. Advanced reservations recommended. 262-677-2696

No Overnight Parking

By 10 p.m. each night, all parking lots must be empty. Officers will be checking to ensure the lots are cleared. Overnight parking of show car vehicles is not permitted unless specific authorization is obtained from the Tower Staff and the vehicle moved to a designated area. Violation of these requirements may result in the vehicle being towed.

No "For Sale" signs

Absolutely no "For Sale" signs may be displayed in the show car exhibit area. If you are looking to sell your vehicle, the correct place to be is in the Car Corral.

Parts Hauling

The Boy Scouts provides this service. Heavy-duty push-type garden carts are used, which can manage most parts, except heavy engines and bulky items.

Large or Heavy Parts Hauling - This is a parts pick up and hauling service for large or heavy items only. Arrangements can be made to dispatch parts haulers. Vendors have information on how to request this service, or you may come to the Tower -Be prepared to provide the space # and description of the item(s). There will be designated pickup points at the gates. Volunteer workers will transport parts and buyers back to the parking lots, campgrounds, etc.

Pets

No Pets allowed. ADA Compliant Dogs Only - must have paperwork. Service dogs are trained to do work or perform a task for person with disabilities. Comfort or emotional support animals are not service animals & not recognized by the ADA.

Public Address Announcements

Announcements emanate from the Tower. No Personal announcements will be made. Exceptions in cases of an emergency, such as a lost child, severe family emergencies, or severe health problems. We do not page individuals who become separated from their parties. We recommend you decide on a designated meeting place ahead of time.

Restrooms

Restroom facilities are located adjacent to all major food stands (Activity Center, WI River Meats, Primal Eats) and at Otto's Bar. Public portable toilets are available throughout the grounds.

Showers

*Showers are closed each night between 11 p.m. and 5 a.m.

Iola Campgrounds- Free showers are available.

Upper Swap Shower Houses- Hours of operation:

Morning hours: 5:30 a.m. - 9:00 a.m. *Thursday - Saturday

Evening hours: 5:30 p.m. - 10:00 p.m. *Wednesday - Friday

High School Showers- 540 S. Jackson St., Iola

Hours of Operation: Wednesday evening: 4 p.m.-10 p.m.

Thursday, Friday, Saturday 6 a.m.-9 a.m. & 4 p.m.-10 p.m.

Sunday: 6 a.m.-9 a.m.

Show Collectibles/Souvenirs

The Iola Car Show Merch Store and Trailers have all your favorite collectibles; Commemorative limited-edition license plates, posters, dash plaques, pins, buttons, collector cars, apparel and more! Get your collectibles now before they sell out!

Van Shuttle

Vans operate from Gate #5 to the Central County Airport in Ogdensburg - \$5 fee for round trip.

Water Fountains

Located outside the three restroom facilities, across from the commercial vendor building and in the campground.

Wayfinding Signs

Bright yellow signs on the main campus will point you in the right direction, helping to get people where they want to be.

Wisconsin Division of Motor Vehicles

Will be onsite Thursday 10 a.m. - 5 p.m. and available again on Friday 8 a.m. to 2 p.m. Bureau of Vehicle Services will be located in the Special Exhibit area. They will have registration forms available for vehicle titles, registration, license plates for antique collector and hobbyist vehicles.

WI FI Internet Service

Iola.Guest is the Iola Car Show complimentary WIFI Internet Service on the Swap Meet grounds and Campgrounds. No password is required. Hotspots are located near the food stands.

2024 Recognition - WELL DESERVED

2024 Business of the Year *Amazing Cleaning Services*

The 2024 Business of the Year was Amazing Cleaning Services, based out of Waupaca, WI. ACS has been an absolute Godsend for the show. This will be the third show for William Harri-man and his team. They took over the cleaning and maintenance duties for the restroom and shower facilities, and their efforts have made a huge difference in the show experience. They do a thankless job that is hard to fill with volunteers, and they do it with pride. We are so glad they've become a regular part of the car show team!

2024 Volunteer of the Year - *Dale Bestul*

Selecting a Volunteer of the Year is always a difficult decision. Many of our volunteers are deserving of this recognition year after year for their steady performance, and sometimes a particularly large task has been taken on. The 2024 Volunteer of the Year has been a major player at the show for a very long time, and this honor was long overdue.

Dale Bestul has served on the Board of Directors for the Iola Car Show for more than a decade, and has held the role of President since 2021. He is also the chairperson of one of the most vital and challenging areas of the show, the Supply Team. Dale is a leader and role model through and through. He and his team get the job done and have a lot of fun while doing it. He helps create a positive atmosphere for the entire team.

John “Gunner” Gunnell’s Family

SEEDS SCHOLARSHIP FUND IN HONOR OF GUNNER’S LEGACY

A familiar story in the hobby of collecting is that of the family left to deal with the collection after the passing of the collector. It’s a story we all have some level of experience and understanding of, and it’s never easy no matter how big or small a collection might be. John “Gunner” Gunnell Sr. was a titan in the collector car world, and since his passing in August of 2023, his family has been working to process what remains of his collection.

In the case of the Gunnell’s, the existing relationship with John Sr. made the Iola Car Show a natural partner for the family in this process. As they approach the end of the liquidation process, they’ve reached out to Iola with a novel idea to honor Gunner’s legacy. The Gunnell family wanted to see a scholarship program developed in partnership with the Iola Car Show.

There are three remaining vehicles from Gunner’s collection, and all three are available for sale in the Car Corral during this year’s show.

1948 Pontiac Streamliner 8 Sedan- 268 ci Straight 8 with an automatic transmission

1953 Pontiac Chieftain Deluxe 8 Custom Catalina - 268 ci Straight 8 with an automatic transmission

1952 MG TD - The car was recently restored by Ken Nimocks in Green Bay, WI. Overall the car is in pristine condition. Fresh paint, stainless steel exhaust.

The family has pledged to donate a minimum of \$10,000 from the proceeds back to the Iola Car Show to seed a fund that will be known as the John “Gunner” Gunnell Legacy Scholarship. This scholarship is intended to recognize graduating Iola Car Show interns that have demonstrated a passion for old cars and the dedication to promote the car collecting hobby.

The Gunnell family hopes to highlight this new program, encouraging others to consider donations back to Iola Old Car Show, Inc. a 501 c 3.

CHANGES COMING TO *Online Registration*

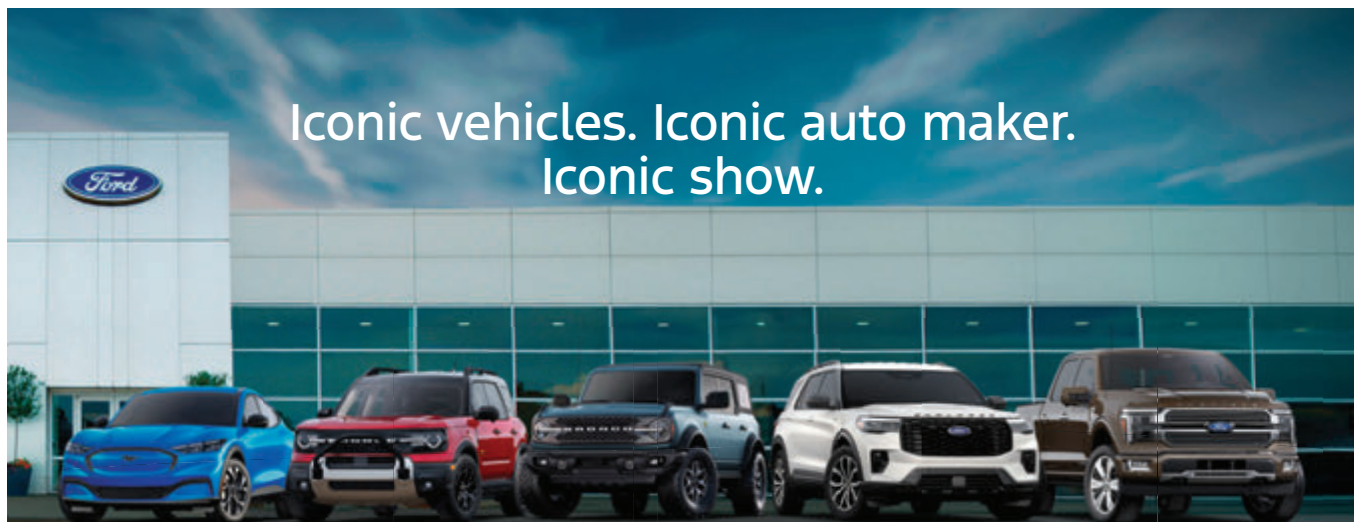

A big change is coming to the registration process for Iola 2026. The program we've been using is no longer able to support the show's needs, and we'll be proceeding with a new program going forward.

The new program should

be a significant improvement over the current one, and will be well under development by the time of Iola '25. It's possible that we'll be ready to take reservations for 2026 at this year's show, but it's more likely we will open registration in August or September. While we expect the program to perform well, we know there is always a learning curve with a new system. That will be true for our office staff as well as our participants, so we ask for your patience and understanding as we work to launch the new system.

Iconic vehicles. Iconic auto maker.
Iconic show.

Icons in every way. That's Ford. And the Iola Car Show, proudly sponsored for nearly a decade by your Local Wisconsin Ford Dealers.

*Based on S&P Global Mobility retail U.S. new vehicle registrations for the truck vehicle type CYTD December 2024. Some vehicles shown with optional equipment and extra-cost colors. 2025 Mustang Mach-E[®] inventory may be limited and may vary by location. Please contact your Ford Dealer for the most current inventory status.

Fechter and Swap Meet Matt Collaborate **ON SIGNAGE AND SPECIAL CHRISTMAS FEATURE, TLC SIGN CO AND FOX VALLEY HOLIDAY LIGHTING**

Something that's been missing since moving out to our permanent offices here on the grounds in 2020 has been signage befitting the operation out on Highway 161. Fortunately for us, there are resources close at hand who know a thing or two about signage and making an impact.

Longtime contributor and current Senior Advisor Larry Fechter has a knack for vision and creating memorable experiences for people to enjoy. Recognizing the need for better signage, he also saw an opportunity to fulfill another one of his goals, to create a Christmas feature that kids will remember and look forward to year after year. With that goal in mind, he started collecting the players and pieces required to do just that.

Utilizing a traditional sign pole, TLC Sign Co of the Wausau area was tasked with the creation of a large, backlit Iola Car Show sign that's an awesome blend of classic and modern. TLC mounted the sign on the 25' pole facing North, just off of Hwy 161.

Fechter's vision called for the creation of a larger than life Christmas tree out front, with the logo serving as the star on top. Director of Swap Matt Marquardt worked with Larry and was the primary boots on the ground for designing and building the monstrous tree. Matt personally installed more than 600' of green LED rope lighting to frame the tree.

Next up was the most important part... Christmas lights! I don't know how many of you have ever looked to decorate a "robust," or dare I say, "portly," 25' tree, but it's not the sort of thing you run to Walmart for to source your lighting. No, for this job, we needed an expert. Fortunately, we didn't have to look far at all. Dustin Stelse of Fox Valley Holiday Lighting was exactly who we needed for this unique project. Fox Valley Holiday Lighting provides commercial and residential lighting and decorations in and around the Fox Valley. They carry a huge array of commercial lighting products, and do custom design and installation to help their customers stand out from the rest. Dustin set us up with a 1000' cord and several thousand twinkling lights.

Never satisfied with good enough, Matt created more than 50 custom decorations made from vintage hub caps. When the time came to officially light the tree, spectators and passers-by were treated to a truly breathtaking display. For the entire Christmas season, this monument created joy and is sure to become a memorable and lasting tradition.

Ron, Jeff, and the Iola Car Show

Written by Ron Butz

Like Father, Like Son . . .

that common phrase sums up Jeff's and my relationship between father, son and the Iola Car Show. We first attended the show in 1982. Prior to that we joined the "Car Show" world attending many small shows for several years before we decided to check out what a "bigger" two-day show had to offer. We took a one-day peek at the Iola show to compare it to the smaller local shows.

After attending the show for just one day for several years, we decided to expand our exposure to the full two-day event. We stayed in the original campground (then down the hill) in our 15-year-old 10 x 12 tent. My wife and I and our two young sons packed everything necessary into our 1966 Chevrolet Impala for our camping adventure at the Iola OLD Car Show.

As the years progressed through the 80's into the 90's, the attraction continued as an annual father/son get-together event. Even when the show expanded to a three-day event, we were there for the entire event. No matter if the show was two or three days, we managed to pack and get to the show the day before, hitting the grounds running first thing in the morning to cruise the vendor area. We have been camping on the grounds in that same old tent for over 40 consecutive years.

Jeff, my older son, was 9-years-old at our first show and, like any 9-year-old, was excited to rush from one toy vendor to another looking for treasures.

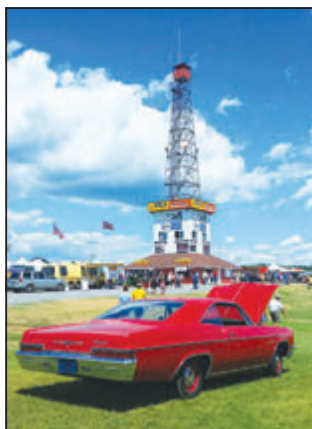

As he got older, his interest evolved into looking for parts for "Dad's Car."

This tradition continued into the early 2000's, and with the advice of a co-worker, I connected with Kenny Buttolph who managed the Blue Ribbon area. In 2004, I was invited to display my Original Owner 1966 Impala in the Blue Ribbon Area and have proudly done this ever since.

During all these years, my son has been instrumental in helping maintain "our" car, both at home and at shows. In 2014, he finally decided it was time to get his own ride. He wanted something different, making a cross-country trek to northern Vermont to pick up a six-cylinder '66 Impala with no power steering or power brakes, and a three-speed manual transmission. Except for a recent motor overhaul, his car is a survivor.

Now when we attend shows, Jeff still spends time prepping my car before doing any cleaning on his and when we park next to each other, our nearly-identical regal red two-door hardtop Impalas punctuate our history:

Like Father, Like Son.

CONCERTS

ON THE MAIN STAGE

THURSDAY

Bus shuttle will run to the parking lots and campground from 5pm - 10pm

12 PM - SECOND HAND STEREO POP, ROCK, COUNTRY & OLDIES

4 PM - STRYDER BAND TRADITIONAL TO CONTEMPORARY BLUEGRASS

Gate #1 to Show Car Area Internal Bus Route

Save (at least) 1,201 steps with each trip!

Iola Car Show Grounds

UPDATES AND IMPROVEMENTS

We hope longtime participants have taken note of the steady progress and the commitment to continue to improve the grounds and infrastructure. Here are just a few highlights of those improvements and initiatives since last year's event.

Extra Seating - Just east of the Primal Eats Food Stand, the Pit Crew and company have installed a large hoop structure to serve as additional covered space for seating. They've also brought the ground up to grade and added fresh gravel to improve the designated space for food trucks and trailers.

Hog Barn - A new and inviting gravel approach has been added to the North side of the Hog Barn. This awesome destination was a hit last year, bringing design elements and atmosphere from our friends at Vandervest Harley-Davidson and Bull Falls Harley-Davidson. They're building on what they started last year, and the additions will be hard to miss.

Campground Bus Stop - A new bus stop structure has been installed just across from the campground barn. This bus stop matches the look of the two that were installed on the grounds in 2024, and will serve as a symbol and pickup location for the bus that runs between the campground and Gate 3. This is a secondary route that gives more travel options for campers during the weekend, and will allow them to be picked up and dropped off near post-war show car parking and the main drag.

Oasis - The Oasis, one of last year's most popular additions, is also seeing additional improvements. The grass backyard has been leveled and reseeded to create a flatter space that's more conducive to picnic tables and other activities. Appropriately themed standing cocktail tables have also been added near the bar to further improve capacity while adding to the already fun ambiance.

CRUISE OF HONOR

My Grandmother Flossie

written by Justin Moen

“For God and Country we associate ourselves together for the following purposes: To uphold and defend the Constitution of the United States of America; to maintain law and order; to foster and perpetuate a one hundred percent Americanism; to preserve the memories and incidents of our associations in the great wars; to inculcate a sense of individual obligation to the community, state and nation; to combat the autocracy of both the classes and the masses; to make right the master of might; to promote peace and good will on Earth; to safeguard and transmit to posterity the principles of justice, freedom and democracy; to consecrate and sanctify our comradeship by our devotion to mutual helpfulness.”

This is the preamble to the constitution of the American Legion. It is spoken in unison by members of the American Legion and American Legion Auxiliary before the start of each meeting. As a kid I would often accompany my grandmother, who was a member of the American Legion/Auxiliary Post #14 here in Iola. Even though I was only a kid and not a veteran, I would find myself reciting these words with the same amount of pride my grandmother, her fellow auxiliary members, and the veterans did.

My grandmother was Flossie Moen. She was an auxiliary member here in Iola for 32 years before her passing at age 91 in 2018. In addition to being an auxiliary member, she was a member of the Iola Lioness Club. Between the two organizations, she did her fair share of volunteer work.

For many years during the annual Memorial Day parade, she would walk with her fellow auxiliary members through Main Street carrying the American flag and showcasing it with a pride it so richly deserved. When

she got older and it became more difficult to make the long walk, she would wear her Uncle Sam-style top hat and a red, white, and blue necklace decked out with little plastic American flags in front that would light up and play the National Anthem. She would walk the sidewalks of Main Street, give children little American flags, and get people excited during the parade.

As an Iola Lioness member, she took great pride in playing Mrs. Santa Claus during the annual Christmas parade. Of course, she donated countless hours of volunteer work here at the Iola Car Show. As a volunteer during the show's first 30 years, she represented the Iola Conservation Club, American Legion Auxiliary Post #14, and Iola Lioness Club. During that time, she rotated between making breakfast and working the gates, mainly Gate #3.

I was very fortunate to volunteer alongside her for a number of years. I learned the concepts of working hard, being kind, caring for others, and serving the public. Those qualities have taken me a long way in my personal life. I'm blessed and honored to serve

as executive director of the annual Iola Car Show Cruise of Honor. And I dedicate my work on the Cruise of Honor to my grandmother Flossie “Mrs. Claus” Moen.

It is an indescribable joy to help lead the Cruise of Honor for our local veterans. Each year, the Wisconsin Veterans Home in King brings two groups of veterans on Thursday and Friday of the show. We have a cruise late in the morning and early in the afternoon each day.

New this year, we are adding at least one cruise on Saturday for any veteran who would like to be led on a cruise around the grounds. You do not need to be a resident of the Wisconsin Veterans Home to sign up for the Saturday cruises. If you're a veteran, you're invited.

It can never be said enough how much we love and appreciate all our veterans past and present for their bravery and sacrifices they made to protect and defend our great country. And we're so blessed and grateful to the veterans alive with us today.

You'll find many veterans on the car show grounds this weekend. When you see them, please thank them for their service. They served us, and it's an honor to now serve them.

Our goal is to grow and expand our cruise of honor in the future. We have a lot of exciting ideas and concepts in the pipeline to evolve the cruise, and you can be part of that process. As an organization or individual, you can make a donation of your choice to the Iola Car Show Cruise of Honor. You've got an opportunity to help us serve our veterans and make a difference in their lives. Even a brief cruise around the car show grounds can make a big difference. May God bless you, may God bless our veterans... and may God bless the United States of America!

Wider roads support reduced congestion and growing cart path

The addition and evolution of the cart path has largely been very much appreciated by participants of the show. Vendors, spectators, exhibitors and volunteers aren't getting any younger, and grounds aren't getting smaller or flatter. The stated goal of the car show team is to create more roads and pathways that are wider and paved, and steps are being taken at this year's show to make progress towards that goal.

A special emphasis this year is being placed on swap vendors staying strictly within their space markers, and not expanding beyond them to the edge of roadways. In some places, such as the stretch heading West when entering Gate 1, space markers have been moved further off the road to help create a wider pathway.

Additions to this year's cart path include the long stretch from Gate 1 to Gate 3, and from Gate 2 to gate 6. While no more pavement is being added at this time, the wider spaces created by the space markers will effectively double the width of the road. This will allow more space for pedestrians and golf carts to share the road, and further balance the overall traffic throughout the grounds. To help with dust control, carts should try to stay on paved roads as much as possible, with pedestrians using the additional grass space when needed.

Another addition to the cart path is a designated bypass lane for the Car Corral. This is designed to help people get between the swap meet and campground without needing to pass through the car corral if they choose.

THE IOLA CAR SHOW, IN CONJUNCTION WITH THE KING VETERANS HOME AND SOME AMAZING SPONSORS, ARE VERY HAPPY TO SUPPLY A TOP-NOTCH SHOW TO A NUMBER OF VETERANS. THESE VETERANS ARE GIVEN A VIP RIDDEN TOUR OF THE SHOW BY JO CODDINGTON & ARLO DILLMAN, GIFT BAGS AND A FEW OTHER PERKS. NOT ONLY IS THIS THE LEAST THE IOLA CAR SHOW CAN DO FOR THESE MILITARY MEMBERS, BUT SPECTATORS OF THE SHOW LOVE THE OPPORTUNITY TO RECOGNIZE THEM AS THEY TRAVEL THE GROUNDS. TWICE A DAY ON BOTH THURSDAY AND FRIDAY OF THE SHOW (AND POSSIBLY SATURDAY FOR ANY VETERAN AT IOLA!), KEEP YOUR EYES OPEN FOR A SPECIAL GROUP OF HEROES BEING GIVEN A FIRST CLASS, RIDDEN TOUR OF THE SHOW. IF YOU SEE THEM COMING YOUR WAY, PLEASE BE SURE TO EXPRESS YOUR GRATITUDE FOR THEIR SERVICE, SAY HELLO AND MAYBE EVEN OFFER A HANDSHAKE FOR THE SACRIFICES MADE.

Super Saturday Giveaway

INCLUDES 4X4 FORD RANGER COURTESY OF RAWHIDE YOUTH SERVICES

Iola '25 marks the 10 year anniversary of the Super Saturday Giveaway including a vehicle as the top prize. Each year during that span, Rawhide and the Iola Car Show have teamed up to co-sponsor a vehicle from Rawhide's fleet of donation vehicles. Year after year, the team at Rawhide has been able to find a vehicle from within their pool that fits the theme of the show. This year will be no exception!

The feature vehicle this year is a Black 2001 Ford Ranger 4x4. At just over 87,000 original miles, this truck is an awesome offering as a daily driver, utility vehicle and more. These trucks have a strong reputation for reliability, and have stood the test of time as well as any compact truck out there.

You can register for free to win this and dozens of other great prizes provided by our wonderful family of sponsors. To register, simply scan the qr code on your wristband, or visit the Touch-a-Prize trailer right next to the tower.

TEAMWORK CREATES MEANINGFUL BEAUTY IN NEW “Welcome Home to Iola” sign

In the late summer of 2022, the Kriewaldt family started the process of reclaiming the land that for many decades served as George Kriewaldt's auto and salvage operation. The early stages of that cleanup included hauling more than 100 old vehicles out of the wooded area that had served as the impound lot. Seeing these relics all lined up not far from the highway sparked a particular thought from active local Marie Skowen that has now come to fruition nearly two years later.

Marie reached out to Joe Opperman from the Iola Car Show, sharing her idea. For years, Marie and friend Kate Korb have been involved in planting and maintaining the flowers at the village sign located at the intersection of Hwy 161 and Hwy 49 just west of the Premier Community Bank. She thought it would be neat if one of the old trucks she saw parked outside could be incorporated with the flowers and the sign. Joe loved the idea, and it wasn't long before a team was coming together.

The idea was shared with the Kriewaldts, and they were immediately interested in supporting the concept, volunteering to donate the vehicle for this cause. A truck was selected and set aside for its destined purpose. Iola Car Show staff member Ali Johnson was tasked with the design, and asked to find a way to blend the look of the old structure, truck and covering with new signage that looked like it fit. Several renditions of the signage were made before the final version, with input from staff and community members in the process.

The Community Development Association got behind the project and enlisted young and talented local Melum Masonry to complete the decorative

concrete, and the results are outstanding. Additional support from the car show team helped complete the preparation and installation before Marie and Kate could get to the serious business of planting the flowers in the custom beds. Matt Marquardt painted the “Village of Iola” artistically on the side, and also had a few more tricks up his sleeve for some very custom and appropriately themed flowers to be installed and changed out seasonally. Jim Payton, Earl Lederhaus and Hayden Nelson helped to install the signage, position the truck and reseed the area with new grass.

A very happy Marie and Kate planted flowers just in time for Memorial Day, when the sign was first seen by the public. Overall, the sign will serve as a creative example of community members working as a team to make a positive impact on the community. The school district has expressed in-

terest in involving students in future projects, and the High School welding class has already experimented with some art-deco similar to the flowers incorporated in this project, thanks to support from the Kriewaldt family. We hope it garners some positive attention that might roll into additional community projects.

Funding for the project came from the Community Development Association, Iola Old Car Show, Inc., and donation from the Kriewaldt Family. The signage was produced by Finishing Touch Signs of Wausau, WI, and Melum Masonry of Iola installed the decorative concrete.

Included in the photo are: Marie Skowen, Kate Korb, Dar Kriewaldt, Matt Marquardt, Hayden Nelson, Jim Payton, Earl Lederhaus, Jennifer Schustek, Joe Opperman and Ali Johnson.

Classic Tailgate Benches

FORGED IN PARTNERSHIP

In the Fall of 2023, Executive Director Joe Opperman reached out to his contacts at the Waupaca Foundry with an idea. There was an already existing sponsor relationship, but Joe had something else up his sleeve.

“Our team had an idea here in the office for some custom benches that resembled old pickup truck tailgates,” explained Opperman. “As a non-profit corporation with very modest budgets and a lot of passion for what we do, creativity is a core strength of the operation.” We knew the Waupaca Foundry would be able to help make it happen.

What began as a simple sketch on paper, Iola Car Show volunteer Jim Payton turned into a life-sized wooden model. Jim is a retired foundry worker, and that background gave him some insight into what might be possible from a design and casting standpoint.

The Waupaca Foundry showed interest in the idea, and the project was

handed over to David Scott, Director of Tooling and Process Manufacturing. With Jim’s wooden prototype on hand, Engineer Alan Crawford got to work turning the prototype into a digital model that could be efficiently produced.

By the summer of 2024, the first castings of the unique bench ends were rolling off the assembly line and heading to Alliance Industries for color. Additional support for the project has come from Metal Crafters and Feltz Manufacturing of Stevens Point, WI.

The results have been spectacular! The Iola Car Show donated the first completed bench to the Village of Iola’s Revitalization Committee, and helped develop a sponsorship program for other community improvement initiatives. “We want this to serve the community in as many ways as possible,” says Opperman, “The benches

will help beautify the village and grounds in a creative way as well as generate funds to support more good works. This is an awesome example of teamwork and community building that would not have been possible without our friends at the Waupaca Foundry. The talent there is incredible, and their willingness to support the local community is really felt with this project.”

A number of local organizations and individuals have stepped forward to sponsor the benches that you can now enjoy throughout the community and on the car show grounds. The benches are customizable in color and messaging, and are also available for sale here at the show. Interested parties may sponsor them as commemorative or memorials here on the grounds, or purchase them to take home.

Oasis Retreat features

ANGIE'S FLOORING, FURNITURE AND APPLIANCEMART

The introduction of The Oasis was nothing short of a success at last year's show. The cool and scenic space with the themed, rustic outdoor bar and ridiculous 50 foot tall light up palm tree was impossible to miss at Iola '24. The space was a new addition to the grounds made possible by the acquisition of a neighboring residential property.

Since last year, we've been working to continue to improve both the property and the house, and the house is enjoying a significant renovation to make it more suitable for car show purposes. Inside, the Oasis Retreat house is being crafted to perform double duty. The space is becoming the home for the Premium Experience, allowing guests to enjoy private indoor restroom facilities, upscale catered meals, and a handful of other benefits during the car show event. Outside of show time, the lot will be available for short term rentals via VRBO or similar platforms.

Just like the rest of the Oasis space, the inside of the house will be very uniquely designed and furnished to stand out from anything else in the area. As a part of renovation, Floors by Angie, located in Appleton, Wisconsin, completed the entire main floor design and installation with their beautiful, state of the art floor coverings. While Floors by Angie is a local company, their team covers an enormous territory that essentially covers the entire state. They were the perfect fit to contribute to this project that is sure to get a lot of attention.

Helping to furnish the home, we turned to the experts at Furniture and ApplianceMart. This awesome, local, family-owned furniture and appliance store has multiple locations throughout the state. They are a full-service partner with a strong reputation that can help design and deliver comfort, style and performance to your home. We were thrilled with the knowledge and service their team brought to this project, and we're excited to see it enjoyed by everyone in the years to come.

Waupaca Foundry is Proud to
Sponsor the Iola Old Car Show.

waupacafoundry.com

460460

WAUPACA FOUNDRY IN A BOX

Under the supervision of trained foundry men and women, attendees don safety equipment, manufacture the sand molds, help pour liquid tin into molds, and use files to sand off rough edges to make a variety of objects including keys, paper weights and horseshoes. Waupaca Foundry in a Box is as the name suggests: a traveling foundry in a metal box along with a small electric furnace that melts tin to about 500-degrees. Molds to hold the liq-

uid tin metal are made from a mixture of sand and vegetable oil. The process is very similar to building a sand castle where sand is packed to create impressions in the mold. During the demonstration, Waupaca Foundry employees explain that engineers, machinists, metallurgists, operators, and others created Waupaca Foundry in a Box and educate students on how the tasks they are doing relate to jobs in the foundry.

READY...SET...GEAR KIDS!

We have had two very fun and fantastic years at the Iola Car Show and we can't wait for year three! Last year the kids and the families had so much fun and enjoyed new activities. I am looking forward to having some of the same activities returning this year with some slight changes, as well as some new activities making their debut to GearKids! We are also thrilled to welcome back the Iola-Scandinavia High School Educators Rising group who will be volunteering at the GearKids area. All of these kids that are volunteering would like to become an educator in their future so what better way than work with our GearKids!

New this year we are excited to have the Wisconsin Automotive & Truck Education Association (WATEA) bring their Pit Crew challenge to the Car Show. Also new this year the Car Show and GearKids are starting a Pin Trading activity that should bring some interactive fun to the grounds, be sure to check out the details below. We will also be welcoming back the Mock Swap activity with some new locations to check out. Similar to a scavenger hunt activity they will have to go around to pre-picked areas in our swap meet or areas on the showgrounds in general and get a card stamped. Birdhouse building is back by popular demand, as it was such a hit last year that we ran out of supplies. We are also really excited to have one of our long-time sponsors, the Waupaca Foundry, bring a hands-on activity for the kids

again this year! Learn more about this activity from their article on the previous page.

We are actively working to partner with different companies or organizations who have the knowledge or ability to make this area possible, with the goal of inspiring our next generation. We are really looking forward to seeing this area develop within the show and improve it year after year. If you, or your company are interested in contributing in some way to the development of GearKids please reach out to Hayden Nelson, hayden@iolaoldcarshow.com, to see how we can work towards the common goal of spurring kids' interest in all things cars!

GEARKIDS PIN TRADING AIMS TO CONNECT OLD AND YOUNG COLLECTORS

A new addition to the growing GearKids space is the addition of a kids themed pin collection. The idea is inspired by popular pin-trading initiatives at family destinations like Disney parks, but with an auto themed twist. There is a long history of Lions Club pin collectors here at the show, we hope this will be a fun way to help create connections and interactions with our volunteer workers and other collectors.

The way this is intended to work, participants who collect pins can wear and display them on lanyards, vests, and other mediums. When a GearKid collector approaches them to offer a trade, they must trade evenly, a pin for a pin. There will be a number of volunteer workers wearing lanyards equipped with some of the history Iola Car Show Lions pins, and we hope it also inspires other collectors to get in the game.

Within the show car and swap areas, there are lots of people who've collected these over the years. If you have a collection you'd like to see put back into circulation instead of participating, please feel free to drop them off with show staff at the tower or in the office. These donations will help us grow the program and enhance the fun for some of our youngest enthusiasts.

Special Guests

STACEY DAVID

Stacey David - Stacey David is a well-known automotive expert and television host, and the one credited with introducing real fabrication and HOW-TO oriented programming to a TV audience back in 1998. Starting with the show TRUCKS, and continuing into GEARZ, he has had an incredible 26-year run and counting!

Growing up in Idaho, his passion for cars started early, leading him to work on various vehicles and even drive a 1930s hot rod to school.

Before TV, David was a professional musician in Nashville and ran his own custom car shop, "The Rattletrap." His television journey began as the host of Trucks! for seven successful years. He then launched Stacey David's Gearz in 2007. The show, which has aired on networks like ESPN2, Speed Channel, MavTV (now RACER Network), and Velocity (now MotorTrend), focuses on DIY automotive projects from simple modifications to complete custom builds of unique vehicles.

Known for his hands-on approach and iconic creations like "Copperhead," David is a respected and influential figure in the automotive community, also hosting a podcast and encouraging enthusiasts to build their dream projects. We are so excited to welcome him to the Iola grounds for the first time! Stacey will have a tent in the modified show car area and be signing autographs from 9am - 11am and 1pm - 3pm on both Friday and Saturday!

Heather Storm - Heather Storm is a network Television Personality, Producer & Influencer with over 400,000 followers on social media. A woman who loves cars, she was the series host of Garage Squad on Discovery's Motor Trend TV, Street Tuner Challenge on SpeedTV and was a guest on Jay Leno's Garage. Heather is the creator and host of the travel series, Drive Yourself Local, where she explores small town America in her 1965 Ford Mustang and Heather Storm Off-Road where she discovers the world of off-roading in her 2022 Ford Bronco. Storm works at car shows nationwide as celebrity guest and MC, and shares stories of her adventures on her blog, On the Road and her YouTube Channel. You can catch Heather at the Oasis all three days of the show!

Derek Bieri - Back for his 3rd year in a row, Derek has been a highlight of the show! In 2018, Derek launched "Vice Grip Garage," a YouTube channel where he showcases his ability to bring neglected and often long-abandoned vehicles back to life. His approach focuses on practical,

budget-friendly methods, often relying on his ingenuity and resourcefulness to get things running. This down-to-earth style, combined with his genuine enthusiasm and sense of humor, quickly resonated with a wide audience.

The success of "Vice Grip Garage" has led to further ventures, including the TV series "Roadworthy Rescues." Derek's passion for classic cars extends beyond just fixing them; he shares the entire process in an accessible and entertaining way, connecting with viewers who appreciate the art of restoration and the stories behind these vehicles.

Derek's work has garnered him a significant following and an estimated net worth of several million dollars, primarily through his YouTube channel, merchandise sales, and partnerships. He moved his family from Minnesota to Tennessee to manage his growing business more efficiently and to provide a quieter life for his children.

Through "Vice Grip Garage," Derek has not only built a successful career but has also inspired many to appreciate and engage with automotive history, proving that passion and perseverance can lead to extraordinary achievements.

Emily & Aaron Reeves - Emily and Aaron Reeves are the husband-and-wife team behind the popular YouTube channel Flying Sparks Garage, where they share their passion for building and fixing anything with an engine. Their shared love of "wrenching" began in their teens, with Aaron teaching Emily the skills he learned from his family's diesel repair business.

They launched Flying Sparks Garage in March 2015, initially featuring Emily's engine build for her GTO, Roxy. Their genuine enthusiasm and "learn-as-you-go" approach resonated with viewers. The name "Flying Sparks Garage" symbolizes their connection, the spark in engines, and their love for flying their Cessna 172M, Ellie.

Based out of their home shop, they've tackled numerous projects, including Emily's GTO, Aaron's Datsun 280Z, and their Ford Bronco. Emily, who also has a background in modeling, often leads the "In the Shop" segments. Through Flying Sparks Garage, Emily and Aaron inspire others to get hands-on with their own automotive projects.

Follow their adventures on YouTube at "Flying Sparks Garage" and on Instagram at @imemi-lyreeves and @pilotreeves.

Sunbelt Rentals PARTNERS WITH IOLA

Iola's well-known Pit Crew has a reputation for enhancing and developing the grounds and facilities all throughout the year. Spectators and participants of the show look forward to seeing what's new and improved each July when they're here for the show. The Pit Crew generally continues with outdoor projects as long as mother nature allows, and winter provides a great opportunity for working inside the large Convention Center building.

Since acquiring the former Krause Publications office building in 2018, staff has been slowly and steadily working to convert the former office spaces, nearly 500 cubicles worth, into large open spaces that fit in with the car show business. This past winter, huge improvements were made to large sections of the building, made possible by specialty equipment rentals from Sunbelt Rentals.

Sunbelt Rentals is a popular name with rental facilities all over the United States and beyond. They offer all sorts of industrial, tooling and equipment rentals that cover a vast array of business and personal needs. They also have specialty locations with equipment for climate control services and flooring equipment, and the specialty flooring store helped equip our team for incredible progress at a great price.

This winter, Shawn of the Pit Crew worked closely with the experts at Sunbelt to get large rooms of the Convention Center resurfaced into an attractive and useful space. What was an aging carpet just a year ago, now has a beautiful industrial sealed concrete finish that will be a durable surface for years to come. Bob, Earl and Jim also helped to apply fresh paint, new baseboard and LED lighting in the spaces to help finish things off.

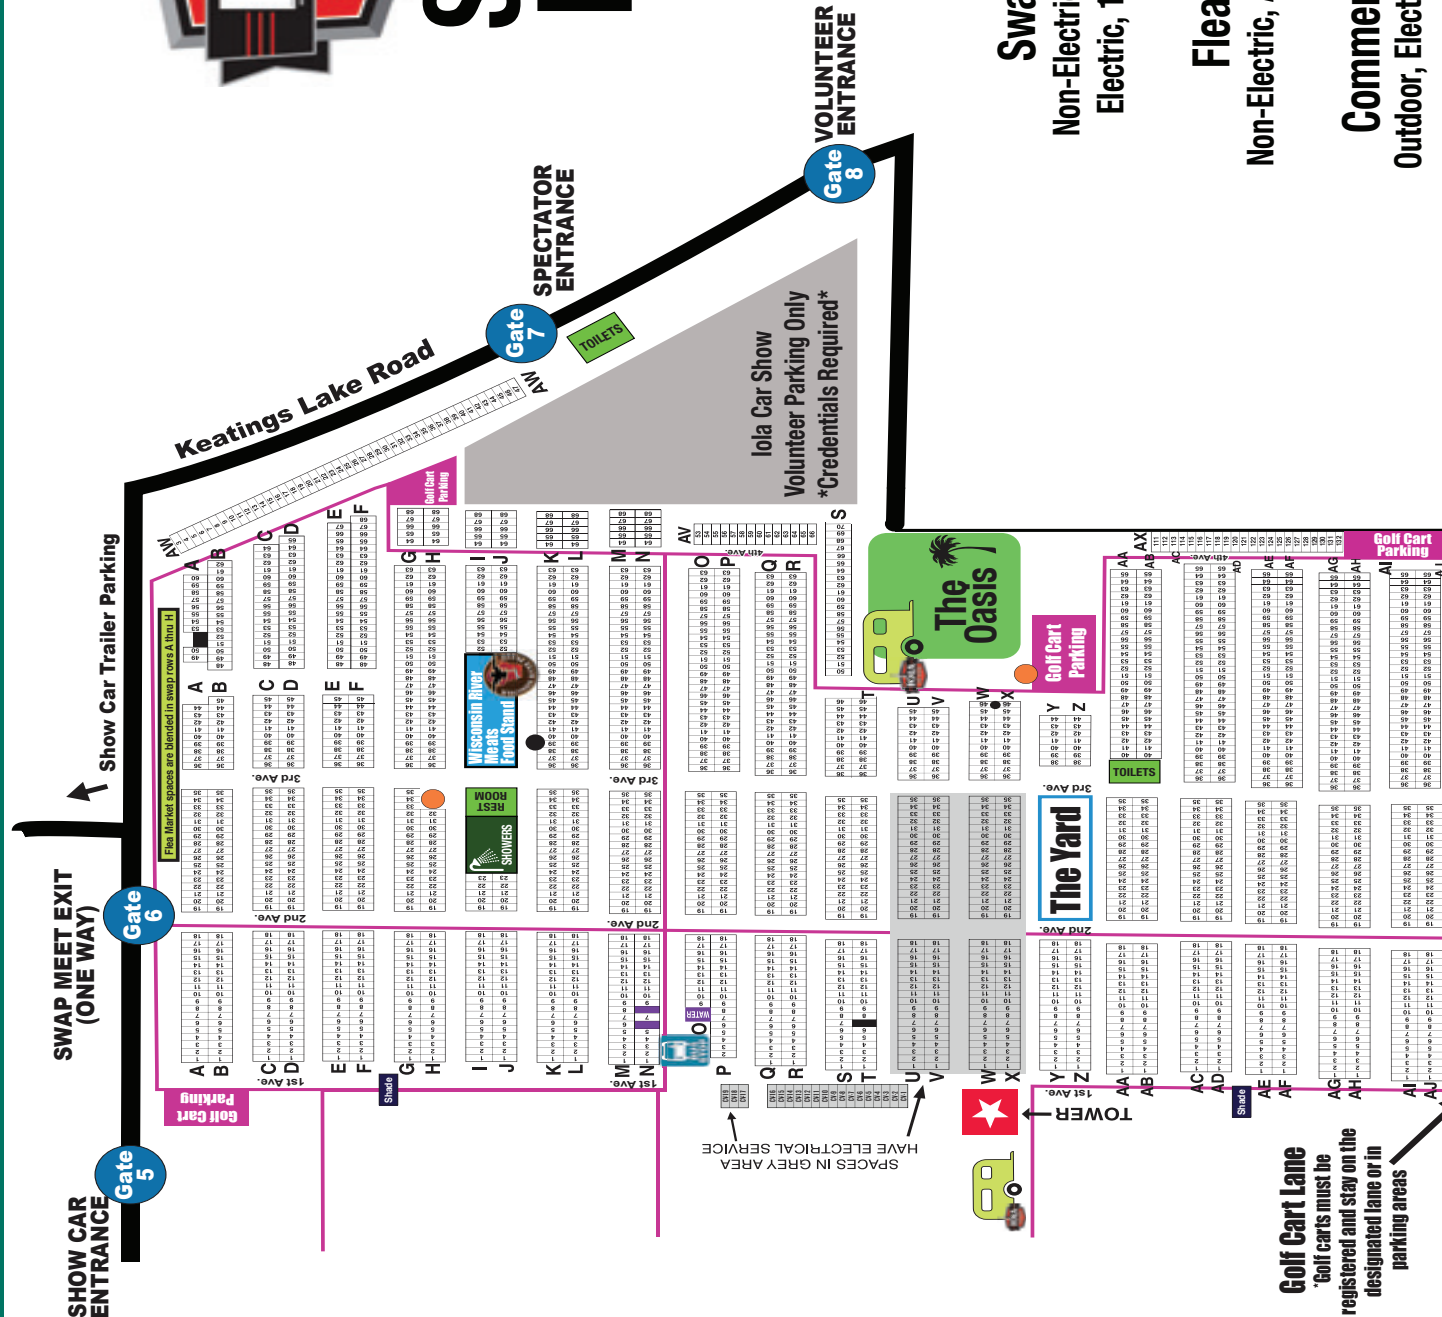

The results of working with the top-notch equipment provided by Sunbelt already has us excited for next winter, when we hope to finish the final rooms in the building that still need attention.

Sunbelt has professionals onsite in the main drag to answer your questions about their products and services. You can also enjoy a break from the weather by taking a rest in one of the Sunbelt Rentals cooling tents, located in a few locations around the grounds.

Show Car Classifications

Have a show car and want to show it at Iola?

We hope the following descriptions will help you to display your vehicle in the area where it will be seen and appreciated most! Please note the following:

Some classes have differing requirements for years of production accepted.

Pre-registration, Pre-Approval, and picture submissions are required for some classifications.

Iola is not a competition! Each vehicle receives a dash plaque, there are no trophies or awards. Just relax and enjoy yourself! Each registered vehicle receives two wristbands – admission for participant and one guest.

Theme Display:

Each year Iola Car Show is proud to recognize a theme. Some cars will be asked to part of the Special Exhibit Display & parked inside the Convention Center Building. This is arranged in advanced by the WSAH (Wisconsin Society Auto Historians). Theme vehicles also have a designated outside parking location south of the Special Exhibit Display.

2025 Theme - 4x4Fun!

Since the first four-wheel drive made its impact in World War 1, four-wheel drive vehicles that started out as the new war horses have become a staple in our car culture around the world. This year the Iola Car Show gets you where you need to go, in a 4WD with 4x4Fun! Great original and modified examples from as early as the 1900's to 1995 will be displayed in the theme area. Unique Four-wheel drive vehicles 1996 or newer are welcome to register for our late-model classification. Theme vehicles can be trucks, cars or SUVs. Some examples include, but are not limited to: Willys, Jeep, IHC Scout, Chevy K-series, Ford F-series, Dodge, Plymouth D-series, and Mercury four-wheel drive trucks. AMC and Eagle and other brands of 4 wheel-drive passenger cars are encouraged to participate. All makes, foreign and domestic are welcome to display.

Blue Ribbon Concours:

Showcases 1990 and older vehicles that are high quality restorations or fine original examples. Factory paint colors, stripes and decals, interior colors/materials, drive-

train, wheels, and model options are highlighted. This exhibit displays vehicles as if they were originally manufactured and provides correct examples for historical and restoration purposes. The show car director may issue an invitation, but we also accept applications for this area to be reviewed by the committee. Photographs are required for approval. Approved vehicles will be added to the Blue-Ribbon Concours invitation list for each year, and they cannot modify vehicle. Pre-registration is required. There is no fee.

Pre-War Display:

Open to all vehicles produced up to 1942 with few to no modifications. There is no fee.

Post-War Display:

Open to all presentable vehicles produced from 1945-1995. Fee is \$15 for duration of event.

Modified Display:

Welcoming vehicles 1995 and older that are considered hot rods, street rods, customized, low riders, rat rods, kit cars, tributes, and replicas. Fee is \$15 for duration of event.

Old Cars/Young Drivers Display:

We celebrate our hobbyists under the age of twenty-five who own and/or have built a classic vehicle. Cars are encouraged to be at least 25 years old, but exceptions may be made if approved. These vehicles do not have to be show-quality but should be visually presentable and in running/driving condition. Stock and modified vehicles of all manufacturers are welcome. Date-of-birth is required for approval. Once approved, you may display in this area until you age out. Pre-registration is required. There is no fee.

Survivor Display:

1976 or earlier production vehicles that are presented as they came from the factory, wearing original paint, interior options, upholstery, chrome, wheels/hubcaps, and original power/drive train with no mechanical modifications. A survivor has been driven and may show signs of wear but is in particularly good, presentable condition and has obviously survived due to great care taken by owner(s), maintenance, and proper storage. It is a time capsule that has

been maintained, but retains 80% or more of what it left from the factory with (not including regular maintenance items, such as belts, hoses, tires, exhaust, etc.) Photographs are required for approval. Once approved, vehicles are allowed to be displayed in this area as long as there have been no changes made. Pre-registration is required. There is no fee.

Late Model Vehicle:

Celebrates 1996 and newer unique and prestigious late model productions. Photographs are required for approval. Vehicles are approved at the discretion of Iola Car Show staff and must be pre-approved each year. Fee is \$15 for duration of event.

Women With Wheels:

This display highlights and celebrates women in the car hobby. Our goal is to empower others to pursue and participate in the hobby as well as demonstrate that gender is not a determining factor in classic vehicle interest, ownership, or knowledge. Pre-registration is required. Fee is \$15 for duration of event.

Original Owners:

This is a new category dedicated to celebrating vehicles that have been owned by the same person, or within the same family, since being purchased new in 1976 and earlier. To qualify we will need you to verify with a copy of your Vehicle Title. Once we confirm it to meet the "Original Owner" category, we will include a window cling badge that you're welcome to retain with the vehicle at your discretion. Original Owners will park together unless you already qualify for a different class and prefer to park there. Pre-registration is required. Fee is \$15 for duration of event.

Fin-Land Display:

For many years it has been a passion of two long-time collectors, Robert Brown, and George Collar, to create an area of Fin Cars that has affectionately become known as "Fin-Land." They have shared their collection and invited others to display with them over the years, under the tent near Gate 5. We look forward to developing this area to carry forward their passion for exhibiting high quality Fin Cars. If you have a great example of a Fin Car and would like to be considered for this area, call the Car Show office at 715.445.4000

Coker Tire Widens the Muscle Car Offering

The muscle car era officially kicked off in 1964 and really hit its stride a few years later, as the Pontiac GTO, Chevrolet Chevelle, Dodge Charger and others doubled down on horsepower and started experimenting with wild colors, cool options and fun names like "The Judge". As the 1960's progressed, the high horsepower cars needed more traction, and a big moment happened in 1967 with the introduction of the Firestone Super Sports Wide Oval tire. This tire revolutionized the muscle car world with a wider contact patch, 70 series aspect ratio and the use of fiberglass belts beneath the tread for added stability.

For comparison, 1966 muscle cars often featured 7.75-14 tires, which measured 27 inches tall with a tread width of only 4-1/2 inches. The introduction of the Firestone Wide Oval also saw the debut of alphanumeric sizing with F70-14 being the most prominent size. This tire had a shorter sidewall than its predecessor, coming in at 26-1/4 inches in overall diameter, with a tread width of nearly 7 inches. This width may not seem like much today, but it was a vast improvement in traction and appearance in 1967. The tire quickly evolved with additional sizes and sidewall options, and a 60 Series tire was added in 1970 for use on high-performance cars like the Camaro Z/28, Mustang Boss 302 and the 1971 Plymouth 'Cuda AAR.

Coker Tire brought the iconic Firestone Wide Oval tire back from the dead in the 1990's, offering them in original 14- and 15-inch sizes. The original Wide Oval featured bias ply construction utilizing refurbished original molds and three sidewall types: redline, raised white letter and pinstripe white-wall. Then, in 2017, Coker Tire took the Firestone legacy into the modern age by creating the Wide Oval Radial tire, giving muscle car enthusiasts the retro look with the smooth ride of a modern steel belted radial. The original focus was on restored muscle cars, so stock style sizes like FR70-14 provided authentic fitments.

Fast forward to 2025 and Coker Tire is breaking through another barrier with the introduction of several new sizes in the

Firestone Wide Oval Radial product line. These sizes provide custom fitments that the factory didn't offer back in the 1960's and 1970's. The new sizes include ER60-15, FR60-15, GR60-15, HR60-15, LR60-15 and NR50-15, and they're all available in either 3/8-inch redline or beautiful raised white letters. The iconic Firestone Wide Oval tread and sidewall markings give the tires the classic look, while the size options allow for cool staggered fitments on Day 2 restorations, street machines and more. This size expansion brings the Firestone Wide Oval radial product line to 10 sizes, and 20 products total when you add in the optional sidewalls. The tires are made in the USA and they're the perfect choice to enhance the stance of your muscle car.

For decades, Coker Tire has been studying the market and listening to its customers to determine viable products for each segment of the classic car hobby. You can find even more valuable information about the outstanding Firestone Wide Oval Radial product line at www.cokertire.com or you can find Coker Tire's Star service team at the Iola Car Show and Swap Meet in spaces O 12-18.

POWERTUBE TV CREATING IOLA CAR SHOW AND SWAP MEET TV SPECIAL

For the first time ever, this year's show includes a production crew from a major TV network intent on creating a TV special featuring all of the excitement of the Iola Car Show and Swap Meet.

In 2023, POWERtube TV launched their streaming network, providing a unique option for automotive programming. What sets POWERtube TV apart is that it's created by enthusiasts, for enthusiasts. Bolstered by extensive feedback from national and international fans, they've been instrumental in the return of beloved classics like PINKS, PINKS ALL OUT, and Pass Time. Serving as a hub for classic shows, reboots and original content, POWERtube TV prioritizes program diversity.

The rapidly growing network is becoming a must-have for those interested in following popular racing circuits around the country. It also doubles as a launchpad for emerging builders and racers with their Content Creator Development Program. By combining classic and innova-

tive programming, they're fast becoming the preferred network for enthusiasts who love speed, power, and car culture.

The power behind POWERtube TV is the secret sauce. CEO Brian Bossone and Content Development Director Ray Iddings have a lifetime of industry experience to match their passion. Their previous work includes relationships with networks such as Speed, Fox, Motortrend, MTV, CMT, MAVtv and more. They've worked with name brand shows and brands alike.

What attracted them to Iola is the culture and countless stories waiting to be told. Their production team will be scouring the grounds covering all the happenings of this year's event, and will be using that footage to create a made for TV special highlighting the show. If you'd like to learn more about the network, or have a story to be told, you can find POWERtube TV at their booth inside the Greg's Speed Shop tent at the West end of the Main Drag.

Wisconsin Bluegrass Bash

SLATED TO BE HELD IN IOLA

The Wisconsin Bluegrass Bash (WBB) is bringing 3-days of live music, camping, art and good vibes to the Iola Car Show grounds July 24-26, 2025. This is the second annual WBB, and the festival's first year in Iola. The event is a revival of the Bluegrass Bashes that were held in Cecil and Medford, WI from the mid-1990's through 2008 and featured artists such as; Old Crow Medicine Show, Trampled by Turtles, Del McCoury, John Hartford, Ricky Skaggs, and Leftover Salmon.

The festival promoter, Funny Farm Productions, has been a part of the Wisconsin Bluegrass scene since the early 1990's after helping out with the final Mole Lake Bluegrass Festival in 1992. In the following years, the fest moved to the Paul Bunyan Ski hill in Lakewood Wisconsin, known as Mole-Lakewood Bluegrass Festival, running from 1993-1995.

Funny Farms first "Bluegrass Bash" was held in Cecil, Wisconsin in 1996. The fest had all the spirit of Mole Lake with a smaller capacity and more intimate feel. For 11 years the Cecil Bash grew to become one of the most beloved bluegrass events in the state. Guests might remember campsites with GIANT flags, mannequins, an above ground pool, or possibly riding around the grounds behind a truck on an old couch fitted with skis!

The Funny Farm family grew a bit from 2008 and took a

hiatus from the festival production business for a few years. In 2015 Funny Farm held the first annual Burning Cow Music Festival on the Door County Motorcycle Memorial grounds in Sturgeon Bay. Burning Cow was a rock and blues fest to remember featuring some of the best and brightest new artists, and in the tradition of other similarly-named festivals, burning a giant cow statue! After 5 great years, there was that pesky pandemic, so we decided to take a pause. Reflecting back to the Bluegrass Bash made us realize where our hearts lay; with bluegrass music, and the good-natured people who love it too.

We are excited and honored to bring the Wisconsin Bluegrass Bash to Waupaca County to be working with the Iola Car Show as a host for the festival. "We are incredibly excited to be working with a long-standing nonprofit that donated more than \$260,000 back to their community last year. The central location offers accessibility from any part of the state, and the grounds are amazing for a music festival. The amenities are excellent for guests, including new shower buildings, permanent structures for beer tents, road and walkways for navigating the grounds, and a team of dedicated people who keep the site in great shape year-round. We're honored to be the first one to pilot an event like this here and are eager to see it thrive."

Come join us for a weekend to make new friends and remember forever!

LINE UP:

- Armchair Boogie (Stevens Point, WI)
- Tidalwave Road (Williamsburg, KY)
- Bibelhauser Brothers (Louisville, KY)
- Chicken Wire Empire (Milwaukee)

Kobussen Buses Ltd.

WE ARE HIRING!

Driven by Tradition.
Fueled by Community.

DRIVE FORWARD TODAY

At Kobussen Buses, our story starts in 1938, when Elwood "Grandpa Goldie" Kobussen put his first school bus on the road in Kaukauna, Wisconsin. He believed in hard work, family, and serving the community—and we've been proudly doing just that ever since.

From that single bus to a statewide fleet, we've grown while staying true to our roots. You'll still find his spirit rolling down the road in "Goldie," our fully restored 1951 school bus that honors where we came from—and inspires where we're headed.

We're proud to be family-owned, multi generations strong, and committed to safety, service, and people. Whether it's getting kids to school, connecting communities through motorcoach travel, or showing off our history at classic car shows like this one, Kobussen is more than a ride—it's a legacy.

JOIN OUR TEAM

- Paid Training ●
- Flexible Schedules ●
- Meaningful work in your community ●

And you can be part of it.

We're hiring drivers, technicians, and support staff who want to make a difference. No experience? No problem. We offer paid training, flexible hours, and a chance to be part of a team that values safety, respect, and community.

CodeRed Emergency Alert System

WHAT IS THE CODERED EMERGENCY ALERT SYSTEM
AND WHY IS THIS SYSTEM IMPORTANT TO ME?

Waupaca County utilizes what is known as the CodeRed Emergency Alert System when a critical incident or emergency situation takes place within the county. We use this system to notify the entire county or specific areas within the county of important information.

This system is a database of resident and citizen information for use only in critical and emergency situations. The CodeRed System is used to send critical communications from evacuation notices, to hazardous weather alerts, to missing children alerts. When residents and citizens enter their information into the CodeRed Emergency Alert System, they are added to a nationwide database set exclusively for emergency community alerts in emergency situations. Your contact information remains private and is only used to contact you for community emergency communications. To register for the CodeRed emergency alerts, please click visit here:
