

OIL/ACRYLIC ART CLASSES

Students have the opportunity to hone their oil/acrylic skills in two different classes throughout the summer with Dave Buckbinder and Dave Coutts. Classes will focus on landscape, still life, seascape, and portrait painting. A student can expect to explore his or her own artistic voice through the principles of light and color and receive individualized instruction and regular demonstrations. The class is open to all. We will begin wherever the student is currently: beginner, intermediate, or advanced. The goal is to have students paint well in a short period of time, and of course to have fun!
